Valedictory Function of the 4th India International Conference on Industrial Engineering and Operations Management Concludes at JNTU

The 4th India International Conference on Industrial Engineering and Operations Management (IEOM) concluded successfully at JNT University on Saturday, with a thought-provoking valedictory session featuring distinguished speakers and experts from various fields. The three-day conference, which brought together industry leaders, academicians, and students from across the globe, focused on the latest trends, challenges, and innovations in industrial engineering and operations management.

The valedictory function was graced by **Prof. V. Balakista Reddy, Chairman of TGCHE**, who was the Chief Guest of the event. In his address, Prof. Reddy emphasized the critical need for integrating law with emerging technologies - a topic often overlooked in today's multidisciplinary educational landscape. He discussed how new technologies such as artificial intelligence, machine learning, and automation are reshaping industries, and urged academic institutions to explore their legal and ethical implications, ensuring that the education system prepares students to navigate the future with a broader perspective.

Other prominent figures in the ceremony included Prof. K. Venkateswara Rao, Registrar of JNTU, Prof. Manzoor Hussain, Conference Chair, Prof. K. Lakshmi Prasad, Director of Vishnu Educational Society, and Dr. Ahad Ali. The event was also attended by a diverse group of students from JNTU, HITAM, BVRIT Institutions, as well as international participants, making it a truly global platform for learning and exchange.

Regards,
Press & Media Cell
O/o Chairman, TGCHE.
